

# How Can You Sleep

Hooverphonic

You know I'm always late  
You know I make mistakes  
I surround you with chaos  
When all you need is a break.

So we argue a little  
We fight a bit more  
When the pain gets too much  
You suddenly close the door

Baby, how  
How can you sleep tonight  
Darling  
How, how can you sleep tonight

You like things perfect  
Nothing can be out of place  
Ever morning you wake up  
Every night I do the same

So we argue a little  
We fight a bit more  
When the pain gets too much  
You suddenly close the door

Baby, how  
How can you sleep tonight  
Darling  
How, how can you sleep tonight

Every time you drink  
Way too much  
So we end up in tears  
And then the lights so beyond the snow

Baby, how  
How can you sleep tonight  
Darling  
How, how can you sleep tonight  
Darling  
How, how can you sleep tonight  
Baby  
How, how can you sleep tonight  
Baby  
How?
