

You

Hooverphonic

You are often in a good mood
That's what I like about you
You accept the things that I do
Without feeling neglected

On the road, you stay in my heart
When I'm gone, I can't stop thinking of you

Are the only one
Who makes me feel invincible
Don't need much more than
You make me see what's worth living for
I love your smile
When I wake up every morning next to you

You're digging my bad mood
That's what I like about you
Oh so close but still we are
Feeling free

On the road, you stay in my heart
I would give everything to be with you

Are the only one
Who makes me feel invincible
Don't need much more than
You make me see what's worth living for
I love your smile
When I wake up every morning next to you

I'm the opposite of blue
And though is not the inspiration for this silly song I write a
bout you

Are the only one
Who makes me feel invincible
Don't need much more than
You make me see what's worth living for
I love your smile
When I wake up every morning next to you
