

# Emerald

Hope D

Yes, she's... wearing a t-shirt of a band that I don't know, so I pretend  
That I'm their number one fan, but she's talking about a song I haven't heard

Oh damn, this isn't going as planned  
I grab my drink with a shaking hand, I pretend it's all going fine  
But I'm really just thinking if I get another drink, will my card decline?

I don't smoke 'cause I'm broke and I'm scared  
That my lungs will break and never be repaired  
But tonight I'm a smoker, if that makes you move closer  
I gotta win you over, but I'm so not sober

How do I make myself  
One you cannot live without, someone you dream about  
How do I make myself  
One you cannot live without, someone you dream about

I don't know  
But I have got to know soon  
'Cause I am so into you  
You've got that emerald shining through  
And I've had brown and I've had blue  
But they were different to you  
'Cause you've got that emerald shining  
You've got that emerald shining through

Now she's talking about a movie that she saw last month and it just so happens to be my favourite one  
So I say how did you find it? Said she didn't like it  
Oh my, well hey, neither did I  
I'll lie - just so I can fit that shape  
Even though it just might be a big mistake  
How do I make you like me? It isn't very likely  
But I'll do what it takes

I don't smoke 'cause I'm broke and I'm scared  
That my lungs will break and never be repaired  
But tonight I'm a smoker, if that makes you move closer  
I gotta win you over, but I'm so totally sober

How do I make myself  
One you cannot live without, somebody that you dream about  
How do I make myself  
One you cannot live without, someone you dream about

I don't know  
But I have got to know soon  
'Cause I am so into you  
You've got that emerald shining through  
I've had brown and I've had blue  
But they were different to you  
You've got that emerald shining  
You've got that emerald shining through

Now I'm about to go berserk  
When is this plan gonna work?  
I don't think I'll ever understand

I try so hard, I don't succeed  
I smoke so much and I can barely breathe and now

I need another plan  
To make you like me  
What is this other plan?  
How do I make you like me?  
What is this other plan?  
How do I make you like me?

I don't know  
But I've gotta know soon  
Because I am so into you  
You've got that emerald shining through  
I don't know  
But I have got to know soon  
'Cause I'm so into you  
You've got that emerald shining through

I've had brown and I've had blue  
But they were nothing like you  
'Cause you've got that emerald shining  
You've got that emerald shining through
