

# Senseless

Hope D

I really hate to admit this  
And I know I'm gonna be rude  
But I'm spittin' out our relationship  
And you still say it's something that I'd never chew but  
But I chewed it til it was dust  
Til my teeth had to be replaced  
But you and I are like nails that have rusted  
And for the record, I fucking hate this haste

But you drained me til I was hollow  
So I filled myself with those pills I swallowed  
Yeah you drained me and now I'm hollow  
I guess I'll fill myself with

Clash of the substance I want this  
Make me so numb and unconscious  
Easier to feel for her when I'm buzzed out  
Weaving all my medication  
Sleeping and no explanation  
It's harder to deal with her when I'm without  
Something that'll make me numb  
Something that makes me become  
So fucking senseless

I really hate to admit this  
But I quit cause I'm so uncommitted  
I took my blood and I stained it just to stay entertained  
I took a pill or two and then I got addicted  
But I got addicted to the way that it felt to put something else above you  
And if we hadn't have met then I'd probably well and I guess that I would be  
sober too

You stained me and I can't forget this  
Yeah you rid me of all of my senses, woah  
Yeah you stained me and now I'm defenseless  
I guess I'll fill myself with

Clash of the substance I want this  
Make me so numb and unconscious  
Easier to feel for her when I'm buzzed out  
Weaving all my medication  
Sleeping and no explanation  
It's harder to deal with her when I'm without  
Something that'll make me numb  
Something that makes me become

Yes, it hurts and the fall fucking killed and the [?] caused a sting  
But I wanted to feel something other than guilt and not feeling a fucking th  
ing  
I guess I am pretty reckless and it's pretty difficult to bruise me  
But the loving was stupid, and numbing and senseless and made me so fucking  
woozy

Guess I'll kill myself with

Clash of the substance I want this  
Make me so numb and unconscious

Easier to feel for her now I'm buzzed out  
Weaving all my medication  
Sleeping and no explanation  
It's harder to deal with her when I'm without  
Something that will make me numb  
Something that makes me become  
Without something that'll make me numb  
Something that makes me become  
So fucking senseless
