

# Burial

Hope Darst

To die is gain  
No resurrection comes without a grave  
The sun descends before another day  
The path You have to me  
It is the same  
It is the same

God I'm letting go  
Of everything that's fading  
Trading in the old  
I'm a new creation  
It's no longer I who live but Christ  
Open up my eyes  
There's a miracle after the burial  
There's a miracle after the burial

The seed must fall  
Before the bud, the bloom, the beautiful  
And tears may last the night before the joy  
My faith is pressing on to the reward  
You're my reward

God I'm letting go  
Of everything that's fading  
Trading in the old  
I'm a new creation  
It's no longer I who live but Christ  
Open up my eyes  
There's a miracle after the burial  
There's a miracle after the burial

You're miracle after the burial  
For no grave can hold  
Your love all-powerful  
You are making all things bright and beautiful  
You're alive in me  
You're alive in me

You're miracle after the burial  
For no grave can hold  
Your love all-powerful  
You are making all things bright and beautiful  
You're alive in me  
You're alive in me

You're alive

You're miracle

You're miracle after the burial  
For no grave can hold  
Your love all-powerful  
You are making all things bright and beautiful  
You're alive in me  
You're alive in me  
You're alive in me  
You're alive in me
