

# Everything For Everyone

Hope of the States

Everything is out and it's perfect  
Perfect best tonight  
The black sky cracks with stars  
All the old days fall apart  
Stand up and hold your head up high  
I know you'll try til the day you die  
Maybe no one knows your name

Hey you, don't you know  
They want a war again  
I see what you meant, when you said  
That there's hope in everyone

Stand up and hold your head up high  
I know you'll try til the day you die  
Maybe no one knows your name

They'll know it one day

I sing it to everyone I know  
I'm gonna sing it til the day I go  
Maybe no one's listening

They'll hear it one day

Stand up and hold your head up high  
I know you'll try til the day you die  
I never even knew your name
