

# One Minute

Hope Tala

One minute you're on my side  
Then you're nowhere in sight  
One minute you care  
Then you're not there  
You go friend to finished  
In one minute

You're tied to me  
Then you can't wait to leave  
One minute you care  
Then you're not there  
You go friend to finished  
In one minute

I'm glad I was convenient  
For the time that you needed me  
Let it hit you when you're leavin  
Cause I'm sure you'll be back when you get lonely  
It  
Didn't take you much  
To drop me off  
When you found somebody else  
Someone new to take off your belt  
Oh well, oh well

You  
Chew me up  
And keep me round

You  
Fill your cup  
Then spit me out

One minute you're on my side  
Then you're nowhere in sight  
One minute you care  
Then you're not there  
You go friend to finished  
In one minute

You're tied to me  
Then you can't wait to leave  
One minute you care  
Then you're not there  
You go friend to finished  
In one minute

It's not my fault that you can't live without me  
Got things to do, people to see, and still you love to tell me  
I'm an independent woman, take out what I put in  
Sometimes I can't help it, doing things I shouldn't  
But I guess you got feelings involved  
So maybe I should change my ways and stop acting cold  
But good behavior gets so old

So I chew you up  
And keep you around

Yeah I fill my cup  
And spit you out

One minute you're on my side  
Then you're nowhere in sight  
One minute you care  
Then you're not there  
You go friend to finished  
In one minute

You're tied to me  
Then you can't wait to leave  
One minute you care  
Then you're not there  
You go friend to finished  
In one minute
