

# Phoenix

Hope Tala

You said don't hide, just walk in a straight line  
Don't you apologise when you're right  
You said straight spine, take one step at a time  
Just keep on breathing and you'll be fine

So I took a breath in and I let myself shout  
Felt the air on my skin and let my hair down  
I don't really know if I'll come back to this town  
But at least I'm here right now (right now)

With my heart between your hands in Phoenix  
Knew that I'd survive, 'cause you made me believe it  
When I'm under attack and my world feels like it's coming to an  
end  
You say don't break, just bend  
You say don't break, just

So if you free fall (free fall)  
Can't help but hit the wall (the wall)  
Promise it's not your curtain call (no)  
Swear there's so much more  
So much that's wonderful  
And I'll be by your side through it all (all)

So just take a breath in, you can let yourself shout  
Feel the air on your skin and let your hair down (hair down)  
I don't really know if we'll come back to this town  
But at least we're here right now (right now)

With your heart between my hands in Phoenix  
Knew that we'd survive, 'cause you made me believe it  
When you're under attack and your world feels like it's coming  
to an end (coming to an end)  
I'll say don't break, just  
With my heart in your hands spilling over (over)  
And my head resting right on your shoulder  
When I'm under attack and my world feels like it's coming to an  
end  
You say don't break, just bend  
Bend (bend) bend (bend)  
You'll say don't just break, just bend  
Bend (bend) bend  
You'll say don't break, just bend
