

Tiptoeing

Hope Tala

How you gonna make me do this dance again?
We're getting closer but we're trying to be friends
If we start it might never end
So we keep tiptoeing

When we met I wasn't interested
I did half a glance, didn't want to chance it
Now I lie awake and I think about you

Because there's a moral to this story but I don't know it
Always listen to myself but not this time I guess
Keep on running from it, when I want it, I do

How you gonna make me do this dance again?
We're getting closer but we're trying to be friends
If we start it might never end, so we keep tiptoeing

I drag my heels 'cause I just can't walk away
Fantasizing if you want to you could stay
And be my baby but our hearts might break
So we keep tiptoeing

It's forbidden but I still want you
I wanna taste the fruit, but I just can't chance it
So much at risk and I'm scared to lose

And there's a moral to the story, but I've lost my head
There's a million different secrets we should leave unsaid
Should be running from it, when I want it, I do

How you gonna make me do this dance again?
We're getting closer but we're trying to be friends
If we start it might never end, so we keep tiptoeing

I drag my heels 'cause I just can't walk away
Fantasizing if you want to you could stay
And be my baby but our hearts might break
So we keep tiptoeing

Tiptoes, tiptoes
You got me on my tiptoes, tiptoes
We want to but we both know
Both know there's too much to lose

How you gonna make me do this dance again?
We're getting closer but we're trying to be friends
If we start it might never end, so we keep tiptoeing

I drag my heels cause I just can't walk away
Fantasizing if you want to you could stay
And be my baby but our hearts might break
So we keep tiptoeing

Tiptoes, tiptoes
You got me on my tiptoes, tiptoes
We want to but we both know
Both know there's too much to lose
