

Stuck Inside My Head

Hopes Die Last

When you lie,
Wandering what can be
Lost behind your eyes.
The sun's so clear but you're still dark.

It was you begging killed for so many years. Tragedy.
I lost a shadow, made him see a (merry o dity).

But as you can see
It's better if I don't know anything.
Cause you can do it by yourself.
Just like I used to do in these days.
Been wandering what can be.
And so you're stuck inside my memories.

Just like I said it in a nutshell
I'll knock you down but not for show.
Yeah I'll destroy them all over this.

Now you can smell my fear.
This is the place where you can feel at me
When you decided the time was up for this.

Now you can see it by yourself.
How I used to feel in these days
Been wandering what can be.
And so you're stuck inside my memories.

Where my heart isn't beating alright
So I don't see the light
I don't see the light.
Lost behind your eyes
Where I just can't deny, deny
What I find is that my heart isn't beating alright
So I don't see the light
I don't see the light.
Lost behind your eyes
Where I just can't deny, deny

Cause like I used to do in these days
Been wandering what can be, what can be.
And so you're stuck inside my memories, my memories.
Days been wondering what can be.
So you're stuck inside my memories.
Days been wondering..
