

COLD

HORIZON

How did our feelings turn this cold
When you smile, it gives me chills it
Takes one touch to make my body know

Temperature's dropping as we speak
Hands are freezing went icy
Those eyes were warm like the sun before

Woo-oo say suddenly say goodbye to the sunrise
Woo-oo hey, didn't wanted it to end let's go back

Lips blue no matter what I say

We can't go back, does it matter what I say
Woo-oo without you life's rough, both of us don't know how

Two hearts into one our cold-blooded DNA
Try to run but my heart's telling me oh no
But ok, maybe I'll forget about our days
But even then you're endlessly stuck in my veins

How did our feelings turn this cold
When you smile, it gives me chills it
Takes one touch to make my body know

Temperature's dropping as we speak
Hands are freezing, went icy
Those eyes were warm like the sun before

You're so COLD
You're so COLD

Those eyes were warm like the sun before
You're so COLD

We on zero oh ay
Cold as freezer all day
Turn the heater up here ye-eh

Can you please look at me
On my knees just beggin'
Give me yo' attention ye-eh

To our dry cold dates, I remember
Was it meaningless? I do wonder
Tell me before I freeze, don't head off

How did our feelings turn this cold
When you smile it gives me chills it
Takes one touch to make my body know

Temperature's dropping as we speak
Hands are freezing went icy
Those eyes were warm like the sun before

You're so COLD
You're so COLD

Those eyes were warm like the sun before

How did our feelings turn this cold
When you smile it gives me chills it
Takes one touch to make my body know

Temperature's dropping as we speak
Hands are freezing went icy
Those eyes were warm like the sun before
