

Odd Eye

HOR17ON

Cry under the dark and I hide under the sign
Can you see me now
See me now
Never falling light shining bright back of my mind
Just come inside of my heart

Caution is all going down
Coming out thorns are making me deeper
Universe jump up and down
This time so different naked eyes keenness
Tight stronger gravity
Go upside down galaxy
Errbody panicking out
Somebody's pseudo-intellectual, gosh

Colliding with two point of view
Can't hide it
The only person got that vision
Crash

Oh why
I can't see but the light and blind
Odd eye
You stare at me with another attention
I can't deny
Gimme gimme
Outta my mind
Oh eh oh

Why
I choose to let you take me down
Odd eye
Uncanny lights are throwing tension
I can't deny
Gimme gimme
Take my hand hold me closer

Feel me? that's it
Help me, crush
Stuck in this infinite maze
Definite heat haze
Dissonant days
Disturbing movement like this wave ya

Colliding with two point of view
Can't hide it
The only person got that vision
Crash

Oh why
I can't see but the light and blind
Odd eye
You stare at me with another attention
I can't deny
Gimme gimme
Take my hand hold me closer

You are shaking up my heart and soul
I know you have something secret please give me
Already know that you read me
Don't know but come and just feel me
I don't lie till I die
No time to pause or go back
Don't bring me down
Promise me stay by my side

Crush

Oh why
I can't see but the light and blind
Odd eye
You stare at me with another attention
I can't deny
Gimme gimme
Outta my mind
Oh eh oh

Why
I choose to let you take me down
Odd eye
Uncanny lights are throwing tension
I can't deny
Gimme gimme
Take my hand hold me closer
