

Just A Ride

Horrorshow

(I'm on a roller coaster...
I swear it's almost over
And then goes back around)

One minute think I got it all worked out
Turns out that is ain't that strong
One second I can get that weight off
And then I put it straight back on
I'm giving in, I'm giving up
Can't give a fuck to give
I'm getting stuck on how the cons outweigh the positives
And when I put my finger on just what the problem is
That's when rock bottom hits

I'm on a roller coaster
I'm going through these ups and downs
I swear it's almost over
And then it goes back around

The sign says you must
Be this tall to ride
So I reach that height
Now I'm in free fall
There's no end in sight
Screaming out my lungs
Knuckles turning white
It's just a ride, it's just a ride

I'm on a roller coaster
I'm going through these ups and downs
I swear it's almost over
And then it goes back around
I'm on a roller coaster
I'm going through these ups and downs
I swear it's almost over
And then it goes back around
