Rescue

Horrorshow

Late at night when I am lying wide awake is when I think of you
All the ways you move, the words you say, the way you do the things y
ou do
Wishing you were here beside me, we could dim the lights, get in the
mood
Going out my mind so won't you come inside 'cause we got things to do

Because this hold you've got on me is strong
Think that we both knew it all along
And I can't make it out here on my own
And so I roam

And I don't know where I'm tryna go, I don't know where I'm tryna get
 to
I just know ain't nowhere that I could go that I could try forget you
Solitude ain't no friend of mine, everything changed the day I met yo
u
I gotta get you off my mind, and so before the morning does

Come to my rescue, come to my rescue
Come to my rescue, come to my, come to my, come to my
Come to my rescue, come to my rescue
Come to my rescue, won't you come to my, come to my, come to my
Come to my rescue

Won't you come to my, come to my, come to my, yeah
Won't you come to my, come to my, come to my

'Cause I been waiting (I been waiting)
Trapped inside, no escaping (No escaping)
The four walls of my imagination (Imagination)
There's only one cure for this craving (For this craving)
And I need saving, won't ya

Come to my rescue, come to my rescue
Come to my rescue, come to my, come to my, come to my
Come to my rescue, come to my rescue
Come to my rescue, won't you come to my, come to my, come to my

'Cause I don't know where I'm tryna go, I don't know where I'm tryna
get to
I just know ain't nowhere that I could go that I could try forget you
Solitude ain't no friend of mine, everything changed the day I met yo
u
I gotta get you off my mind, and so before the morning does

Come to my rescue, come to my rescue
Come to my rescue, come to my, come to my, come to my
Come to my rescue, come to my rescue
Come to my rescue, won't you come to my, come to my, come to my
Come to my rescue
