

## The Headline

## Horrorshow

Y'know, it took me a while  
I guess I kinda had to get used to it and readjust  
But I think I'm starting to like it here

Rocking on blind faith with no MySpace  
Affirmation, I do it the opposite of the highway  
And I'll be happy just as long as I can say that  
Causing ripples in the river with the playback  
Like "Extra, extra, read all about it  
Village idiot takes over the whole township"  
Shit, I cut my own keys to the city  
Me and A-Diddy and whoever else wanna roll with me  
I write my home brand of battle rap magic  
If y'all can't dig 'em, then shit, well that's tragic  
But don't think for a second I'd ever change the method  
To fit your idiot box idea of what's impressive  
We got you second-guessing, but the truth is  
Them new kids bringing the freshness to the set list  
I stay super fly with or without the suit and tie  
While these other mother-hustlers sit and scrutinise  
I'm doing fine, thanks for asking  
Move along now, best believe that it's on now  
See all I need is a mic and a CD-R  
I'mma remind these city folk what it's like to see the stars

There's only so many hours in the day  
But each one's a chance for each of us to have a mate  
So you get yours and I'll mine  
The headline reads clear, now we here to stay  
There's only so many hours in the day  
But each one's a chance for each of us to have a mate  
So you get yours and I'll mine  
The headline reads clear, now we here to stay

I said no longer will I hide  
My lows, I hold my head up high  
Cause I know now I'mma make it  
Take it one step at a time  
Said no longer will I hide  
My lows, I hold my head up high  
Cause I know now I'mma make it  
Take it one step at a time

Heart, mind and soul, the foundations of greatness  
Found inside every track of the playlist  
And I can see it in your faces  
To say we touch base when I'm on stage would be an understatement  
Hush baby, don't say shit  
Let's make real music, throw it on, disconnect from the Matrix  
And you can say what you like, but calling me wack's  
One underestimation you do not want to make kid  
See I'm a firm believer in speak softly  
And carry a big heart and use it to believe in things  
So I stay on the grind, chasing the limelight  
Rocking prime time with my partners in crime  
Cause I got dreams to be that emcee who writes something  
To brighten someone's day, like so many have been to me

So please believe that piece by piece  
We gonna put it all together till the people scream  
We getting off scot-free due to lack of evidence  
When we do a hit and run on your premises  
See, my crew move like a shooting star  
"And we put it in your ear no matter who you are"

There's only so many hours in the day  
But each one's a chance for each of us to have a mate  
So you get yours and I'll mine
