

# Wavelength

## Horrorshow

Head shaved for battle (head shaved for battle)  
Pink Romper Stomper (pink Romper Stomper)  
Stand up for something (stand up for something)  
Say something real (uh)  
I kill these rappers when I aim for the heel  
See me coming? Better run for the hills  
We're not flexing on Lamborghini's  
Never see us acting anything but real  
Just be yourself (just be yourself)  
Mother Nature in my system  
When I need to free myself (gotta free myself)  
It's just me, myself and I  
We've been waiting my whole life  
I can feel a python wrap around my neck  
Like I'm running out of time  
Everybody needs time to unwind, yeah  
Neck brace for the neck breaks  
They double take when I grace the place  
I mean, I look nice in my Vinnies shit  
If you bite my style who am I to hate? Word  
I just drop a couple bars and the ground shakes  
Show a little talent and they all race  
Oh, and by the way

Just wanted to say I'm sorry, sorry to keep you waiting  
Waiting for something different, a wave to get swept away in  
Who want it? Who want it? Do you want it? You want it?  
Come get it, come get it, 'cause we got it, we got it  
Come get it, swept away, come get it, swept away  
Come get it, ain't no measuring the length of the wave  
So come get it, swept away, come get it, swept away  
Come get it, this kind of shit, it doesn't happen every day

I said, "What the fuck is up?" By the look it's nothing much  
If your hood is such and such then you better chuck it up  
When we come through buckle up, run it straight, that's up the guts  
Taumalolo with the ball ain't tough enough to ruffle us  
[?] uppercut, get your muscle up, plus your hustle up  
Ain't tryna quote myself, but fuck it cause, this what struggle does  
Ain't no humble bus on that gasoline  
How I had to be, Martin Luther thing, I had a dream  
Can't be mad at me, I'm onstage instead of at the factory  
The faculty - Turquoise, Horrorshow [?:] and me  
They been hassling, everybody waiting on a flow  
Have some work from Ralph Lauren I been keeping on the low  
But no mo'

Just wanted to say I'm sorry, sorry to keep you waiting  
Waiting for something different, a wave to get swept away in  
Who want it? Who want it? Do you want it? You want it?  
Come get it, come get it, 'cause we got it, we got it  
Come get it, swept away, come get it, swept away  
Come get it, ain't no measuring the length of the wave  
So come get it, swept away, come get it, swept away  
Come get it, this kind of shit, it doesn't happen every day  
Nuh-uh

Sorry to keep you waiting, got this  
Weight on my shoulders, feel like I'm Atlas  
Tell me, what's the hold up? Only getting older  
I maintain my balance, won't catch me tripping like Alice  
In a down under land with Dav Dallas so understand  
If you want it then come 'cause we got it in the pocket  
Do it bigger than if my man, Cole, was taking pics of Christopher Wallace  
This type of shit don't happen every day (Nah)  
This ain't Slick Rick, it's Smooth Nic and he taking centre stage  
So if you got a prior engagement then you better change them plans  
Me today, a sweet escape when a thousand people raise them hands  
Turn around to Adit and I said, "I think we made it, man"  
He said, "Let's ride this wave while we can"

Now the time flies by by the minute  
But the bright blue sky is the limit  
And I just can't wait for whatever come my way  
Ain't a measure in the length of the wave

Just wanted to say I'm sorry, sorry to keep you waiting  
Waiting for something different, a wave to get swept away in  
Who want it? Who want it? Do you want it? You want it?  
Come get it, come get it, 'cause we got it, we got it  
Come get it, swept away, come get it, swept away  
Come get it, ain't no measuring the length of the wave  
So come get it, swept away, come get it, swept away  
Come get it, this kind of shit, it doesn't happen every day  
Nuh-uh
