

D.O.A.

Horse Head

I'm always talking in circles
I'm always changing my mind
To be your friend is fine (Yeah it's fine, yeah it's fine)
Don't wanna waste your time (Don't wanna waste your time)
I just wanna play in your hair
Take you with me everywhere

I kinda just arrive on time (Right on time, right on time)
Strings once tied now unwind

Every wave tidal, dead on arrival
You put on a shirt from your favorite designer
Remember that summer you were suicidal and
I talked you down 'cause you needed reminders?

I'm always talking to someone
I guess I don't really mind
To be your friend is fine (Yeah it's fine, yeah it's fine)
Don't wanna waste any time (Don't wanna waste any time)
I've kinda just been hanging around
'Cause lately I've been feeling down, down, down

I kinda just arrive on time (Right on time, right on time)
Strings once tied now unwind

Every wave tidal, dead on arrival
You put on a shirt from your favorite designer
Remember that summer you were suicidal and
I talked you down 'cause you needed reminders?

I can't stop thinkin' 'bout those words you said
How you can't go on any more like this
Guess I never knew just what I meant
To you, I guess it's nothing
You know I don't wanna hold back
I can't face these facts
Why can't we go back
To when I had you
Maybe when my eyes ain't closed
This is what you chose
I just want you close
Where I can see you
You know I don't wanna hold back
I can't face these facts
Why can't we go back
To when I had you
Maybe when my eyes weren't closed
This is what you chose
I just want you close
Where I can see you

Every wave tidal, dead on arrival
You put on a shirt from your favorite designer
Remember that summer you were suicidal and
I talked you down 'cause you needed reminders?

Every wave tidal, dead on arrival

You put on a shirt from your favorite designer
Remember that summer you were suicidal and
I talked you down 'cause you needed reminders?
