

## Get U

Horse Head

I'm staying back at my old place  
Remember how it felt those days  
So many ghosts in my old room  
I never thought one would be you  
Last time I saw you, you looked my way  
You held me close and you begged me to stay  
I put all my faith in you  
Now, I can't sleep a whole night through

I'm going back to the place where I met you  
I'm living proof that I'll never forget you  
I'm growing up fast, so don't make me regret you  
Anytime you need me, I'll come get you

And now I'm out in Beverly  
And all the girls are heavenly  
But none of them add up  
To you  
And the seasons pass and the feeling lasts  
I wonder how much time can pass  
While I still wish you were  
Here with me

I'm going back to the place where I met you  
I'm living proof that I'll never forget you  
I'm growing up fast, so don't make me regret you  
Anytime you need me, I'll come get you
