

Last Time

Horse Head

Do you remember back when, back when I was down bad
Used to call me up, talk about the days that we had
Now you don't call and you don't pick up
Only time you do is when you looking for drugs
Yeah, that's cool, I've been doing them too
But my favorite pastime's getting fucked up with you
Always pushing me away, you don't know what that do
Then you come running back when life's too much for you
Say what you want, but it ain't ever true
I've been through hell and back, baby, no I don't need you
You're turning red, that's just how you do
One second pushing me away, next thing you telling me come through

Girl, I swear, this is the last time (last time)
Girl, I swear, this is the last time (last time)
Even though we said that last time (last time)
But I swear, this is the last time (last time)
Girl, I swear, this is the last time (last time)
Yeah, I swear, this is the last time (last time)
Even though we said that last time (last time)
But I swear, this is the last time (last time)

I just swore it was the last time, just the last line
And is that your favourite pastime, hating your life?
Sometimes I really hate mine but I'm doing fine
Sometimes I sit and think why do angels have to die
So hang me up, a souvenir
I don't know why you disappear
Like frozen roses, you leave me broken
And now I'm crying on a Sunday night, by the candle light
You make me feel nervous, said it was the last time
But I can't press decline, love just wasting time
You miss me too, you know it

I swear you said this was the last time
Getting fucked up on the border line
I spend more time, swear I spend more time
Scrolling through your timeline, memories of past life
Wonder where we went wrong, I wonder where the time went
Put it in a song from the message that you sent me
Now everything is gone and I'm sorry you resent me
Reminds me of a time that you cried when you were with me
I'm sorry for last time, but I hope you can forgive me

Girl, I swear, this is the last time (last time)
Girl, I swear, this is the last time (last time)
Even though we said that last time (last time)
But I swear, this is the last time (last time)
Girl, I swear, this is the last time (last time)
Yeah, I swear, this is the last time (last time)
Even though we said that last time (last time)
But I swear, this is the last time (last time)
