

Love You Then

Horse Head

You'll only want me when then all do
You'll only love me when they all do
And when they do, how could I love you then?
You'll only want me when they all do
You'll only love me when they all do
And when they do, how could I love you then?

You know you got me actin' crazy, lately
And all this new shit don't amaze me
My life is crazy right now and I need for you to be the one tha
t holds me down
Ohhh
My life is crazy right now
And you're nowhere to be found

You'll only want me when then all do
You'll only love me when they all do
And when they do, how could I love you then?
You'll only want me when they all do
You'll only love me when they all do
And when they do, how could I love you then?

You know you got me spendin' money like it's nothin'
So why you frontin' on me?
I know those other guys ain't fuckin' with me
I know you think of me when you would hang around with those la
mes
They don't fuck with you like I do, they don't make the moves t
hat I do
They're always actin' fake with you
And it's for damn sure you gone want me when I pull a brand new
But I'ma leave it up to you...

You'll only want me when then all do
You'll only love me when they all do
And when they do, how could I love you then?
You'll only want me when they all do
You'll only love me when they all do
And when they do, how could I love you then?
