

GothBoiClique

GothBoiClique in the club in the back
Shawty in all black, 'cause she know I like that
We were supposed to glo
Should I take it all back though?
Love Gang, baby, I don't wanna die
Angel wings on me, don't you wanna fly with me?
You deserve to be ridin' like this
When I pull up on the scene in the GothBoi Benz

Let's go
But every time it gets cold, it just snows
And every place feels just like this
So let's go, to a place
Where our hearts can be safe
'Cause you never know
You can die any day, but your reasons stay the same

GothBoiClique in the club in the back
Shawty in all black, 'cause she know I like that
We were supposed to glo
Should I take it all back though?
Love Gang, baby, I don't wanna die
Angel wings on me, don't you wanna fly with me?
You deserve to be ridin' like this
When I pull up on the scene in the GothBoi Benz

Yeah, pull up to the scene in an all black whip
'Cause ain't shit change, it's still GothBoiClique
Burnin' all these bridges and I'm leavin' old friends
I'm still with my brothers, gettin' money till the end, so let's go
The way I been livin' got my heart feelin' so cold
You can die any day, but your reasons stay the same

GothBoiClique in the club in the back
Shawty in all black, 'cause she know I like that
We were supposed to glo
Should I take it all back though?
Love Gang, baby, I don't wanna die
Angel wings on me, don't you wanna fly with me?
You deserve to be ridin' like this
When I pull up on the scene in the GothBoi Benz
