I  
Go outside, touch grass  
Go outside  
Thankful we  
Didn't die  
On the way home  
I needed someone

Than I ever have before  
Came back again  
They ain't said nothing  
It's getting easy to ignore

No cure for pain  
Put pen to paper  
I really start to miss you more  
Than I ever have before  
Came back again  
They ain't said nothing  
It's getting easy to ignore  
Than it ever was before

No cure for pain  
Put pen to paper  
I really start to miss you more  
Than I ever have before  
Came back again  
They ain't said nothing  
It's getting easy to ignore  
Than it ever was before

And I can't believe my eyes  
Sci-Fi  
And I can't believe my eyes  
Sci-Fi  
And I can't believe my eyes  
Sci-Fi  
I try
