

Under Your Spell (Place Your Hand In Mine)

Horse Head

Carve your name into my heart
I don't ever wanna be apart from you
I didn't mean to cause you harm
I swear I never wanted to

Heart aching, body shaking
You could die any die
You gotta face it
Heart racing, I can't explain it
Under your spell, no escaping

Heart aching, body shaking
You could die any die
You gotta face it
Heart racing, I can't explain it
Under your spell, no escaping

Whats keeping us together if we're so apart?
You're next to me but your hearts on Mars
Use duct tape just to fix your heart
You use to feel so close to me

There's a place in your heart that seems so far from you
It still stings like it used to
Place your hand in mine
And I will follow you

Carve your name into my heart
I don't ever wanna be apart from you
I didn't mean to cause you harm
I swear I never wanted to

Heart aching, body shaking
You could die any die
You gotta face it
Heart racing, I can't explain it
Under your spell, no escaping

Heart aching, body shaking
You could die any die
You gotta face it
Heart racing, I can't explain it
Under your spell, no escaping
