

A Family In Here

Hot Chip

Sometimes I feel so happy
I could glass myself in the eye
Look at me on the dance floor
Waving hello and goodbye
Is this something you were after?
Do you think we could maybe try
To find no kind of answer
But to empty ourselves of what, why?

When I go, I want to go with you
I want to fall from grace in full public view
When I go, I want to go with you
I want to fall from grace in full public view

Darling, I don't know where I
Lost what was in our hands
What can you find in another
Useless set of plans?
In a moment of devotion
You can find yourself a wife
In a moment of devotion
You can cut yourself in half

When I go, I want to go with you
I want to fall from grace in full public view
When I go, I want to go with you
I want to fall from grace in full public view

There's a family in here
Somewhere, baby
We can find it
And I know it's in here
There's a feeling inside me
Somewhere, baby
I can't find it
But I know it's in me
There's a family in here
