Broken

Hot Chip

Sometimes I feel I'm broken down and words are too much
Sometimes I think I'm coping, but I know I have no such luck

If I can find language to help me
Then maybe you can still support me

Am I just broken, am I just broken?
You know that I'm hoping
Am I just broken, am I just broken?
You know that I'm hoping

Sometimes I think you're open, and wounds will not heal without my to
uch
Sometimes I feel your open wounds are just a touch too much to bear

If I can find language, I can help you
If I can find the words, I will support you

Am I still broken, am I still broken?
You know that I'm hoping
(Can I still be fixed, can I still be fixed?)
Am I still broken, am I still broken?
You know that I'm hoping
(Can I still be fixed, can I still be fixed?)

Dah dit dit
Dah dit dit

If I can find language to help you
Then maybe I can still support you

Am I still broken, am I still broken?
You know that I'm hoping
(Can I still be fixed, can I still be fixed?)
Am I still broken, am I still broken?
You know that I'm hoping
(Can I still be fixed, can I still be-)

Am I still broken, am I still broken?
You know that I'm hoping
(Can I still be fixed, can I still be fixed?)
Am I still broken, am I still broken?
You know that I'm hoping
(Can I still be fixed, can I still be fixed?)

Sometimes I think I'm broken and there is nothing left to bust
