

# Brothers

Hot Chip

Brothers, I can take it if I know I'll see my brother  
And just step back when I'm dancing with my brother is dancing  
with me

Brothers, I would give my life for my brothers  
When we're driving and its late with my brother sat next to me

It's a wild love I have  
it's a wild love that I have  
it's a wild love I have  
it's a wild love that I have for my brothers, for my brother

Brothers, I can play 'Xbox' with my brother  
It's not about who won or lost with my brother  
We play to be free

Brothers, I will drink my fill with my brothers,  
And if one of us is ill then my brothers will watch over me

It's a wild love I have  
It's a wild love that I have  
It's a wild love I have  
It's a wild love that I have for my brothers, for my brother

Brothers, when will we be three again my brothers?  
The way we used to be again my brothers?  
Now I bounce you on my knee again, my brother  
We should be together now my brothers  
There's four of us and what is more my brothers, my brothers, my brothers

It's a wild love I have  
It's a wild love that I have  
It's a wild love I have  
It's a wild love that I have for my brothers, for my brother  
It's a wild love I have  
It's a wild love that I have  
It's a wild love I have  
It's a wild love that I have for my brothers, for my brother
