

Echo

Hot Chip

You remind me of a world I've never known
Deep inside me there's a momentary glow
And there's all that I wanted
And there's all that I need

I only want to be an echo of your beauty
I always try to be the echo to your beauty

Leave your past behind
Just an echo, nothing to regret, no
Leave your past behind
Just an echo, nothing to regret, no

Coming up, coming up, coming up from below

Leave your past behind
Just an echo, nothing to regret, no

Coming up, coming up, coming up from below

Leave your past behind
Just an echo, nothing to regret, no

Coming up, coming up, coming up from below

You demand a truth I never have explored
Reignite a flame I'm trying to ignore
But there's nothing I'm wanting
No there's nothing I need

I only want to be an echo of your beauty
I always try to be the echo to your beauty

Leave your past behind
Just an echo, nothing to regret, no
Leave your past behind
Just an echo, nothing to regret, no

Coming up, coming up, coming up from below

Leave your past behind
Just an echo, nothing to regret, no

Coming up, coming up, coming up from below

Leave your past behind
Just an echo, nothing to regret, no

Coming up, coming up, coming up from below

Who are you fooling?
Catch yourself falling
Who was that calling?
You need your love
Who are you fooling?
Catch yourself falling
Who was that calling?

You need your love

Leave your past behind
Just an echo, nothing to regret, no

Coming up, coming up, coming up from below

Leave your past behind
Just an echo, nothing to regret, no

Coming up, coming up, coming up from below

Well the world is for lovers
Getting down on their knees
But you're stuck in the snow
Finding life hard to breathe
In the wreckless abandon
You find your perfect companion
But the damage is done
You don't know who to believe

Leave your past behind
Just an echo, nothing to regret, no

Coming up, coming up, coming up from below

Leave your past behind
Just an echo, nothing to regret, no

Coming up, coming up, coming up from below

Leave your past behind
Just an echo, nothing to regret, no

Coming up, coming up, coming up from below

Leave your past behind
Just an echo, nothing to regret, no

Coming up, coming up, coming up from below

Leave your past behind
Just an echo, nothing to regret, no

Coming up, coming up, coming up from below

Leave your past behind
Just an echo, nothing to regret no
Leave your past behind
Just an echo
Just an echo
