

So Deep

Hot Chip

You know when you told me
That it was going down
I didn't believe you
But I do now

And everything that you said
Came true
Believe me when I say
That I'm in two

Deep...
So deep
She kissed me twice and I could not sleep

Deep...
So deep
Forget everything I said last week

She kissed me once, twice
I need some advice
Cause I never tasted anything
Quite so nice

Let me tell you
I got so ill
I had to go to the chemist
For a steeping bill

Yes, I'm in deep...
So deep
She kissed me twice and I could not sleep

Deep...
So deep
Forget everything I said last week

You know I got to, got to, got to
Got to get her, get her, get her
I got to, got to, got to, got to
Send her a letter

I got to, got to, got to
Got to get her, get her, get her
I got to, got to, got to, got to
Send her a letter

Deep...
So deep
She kissed me twice and I could not sleep

Deep...
So deep
Forget everything I said last week

Deep...
So deep
She kissed me twice and I could not sleep

Deep...
So deep
Forget everything I said last week
