

## Confetti Day

Hot Chocolate

Grandma in the church sleeping  
Ma was in the church weeping  
Daddy was ready to give his daughter away

Antie Claire said to Antie Mary how have you been keeping?  
I haven't seen you since grandpa passed away

Confetti day think about what you're doing  
Confetti day debit[?] myself to wreck and ruin

When the preacher said say I do  
I looked at you and I knew what I was doing was right  
I said when the preacher said say I do Jean  
I looked at you and I knew what I was doing was right

Night before I couldn't sleep  
Thinking bout the vows i had to keep  
For better worse for ever more  
Standing at the altar  
My heart beating faster man  
If I were a bird I'd fly straight through the door

Confetti day can you think about what you're doing  
Confetti day debit[?] myself to wreck and ruin

But when the preacher said say I do  
I looked at you and I knew what I was doing was right  
I said when the preacher said say I do  
I looked at you babe I knew what I was doing was right

And the people came to the party  
And they all had a good time  
And I was so proud of all these friends of mine  
And the band played on leading strong play into the night  
A better day was never had by me in all my life

Confetti day can you think about what you're doing  
Confetti day debit[?] myself to wreck and ruin

But when the preacher said I do Jean  
I looked at you and I knew what I was doing was right  
I said when the preacher said say I do  
I looked at you you know you look so good in white  
Oww!
