Long nights

Those everything wrong nights 
I used to lie awake and play for morning to come

It sees like years before my tears dried in the sun

'cause you had gone. So love me to sleep tonight

Kiss away the pain of all those mem'ries one by one And show me the river still runs strong and deep

Tonight my love - love me to sleep. Slow now
We can't let it go now

Here in my arms you've got a perfect place to hide If you've got doubts why don't we let the night decide Just let it ride.

And love me to sleep tonight

Kiss away the pain of all those mem'ries one by one Love me to sleep tonight

Kiss away the pain of all those mem'ries one by one Tonight my love - love me to sleep.
