

Bye Bye Baby

Hot Flash Heat Wave

Try to tell you how I'm feelin
(Aw aw aw)
I really thought we had a spark
(Aw aw aw)
Then you treat me like a villain
While you're creeping in the dark
Maybe you're the criminal
Yeah, yeah, yeah

Bye bye baby
I really hate to see you go
But the way you treat me last night
Had me lying on the floor
I said, bye bye baby
You know, I thought you were the one
And when you shot me down
Felt like you dropped me with a gun
So, bye bye baby

Feelings change just like the weather
(Aw aw aw)
And when it rains it really pours
(Aw aw aw)
The more we try to hold on tighter
The more we start to feel ignored
I think that I'll be on my way
Yeah, yeah, yeah

Bye bye baby
I really hate to see you go
But the way you treat me last night had me lying on the floor
I said, bye bye baby
You know, I thought you were the one
And when you shot me down
Felt like you dropped me with a gun
Yeah with a gun

Bye bye baby
I really hate to see you go
But the way you treat me last night had me lying on the floor
I said, bye bye baby
You know, I thought you were the one
And when you shot me down
Felt like you dropped me with a gun
