

Gold Years

Hot Flash Heat Wave

Remember the nights (La La La)
And all the dreams we had
That made us into who we are
And all those years (La La La)
Talkin' 'bout the future
Seem like speedin' cars
That drove right past

'Cause now we're in our gold years
Drops of rain are fallin'
Never found a reason
To ever let them go
'Cause now we're in our gold years
Silver rain is fallin'
Still can't find a reason
To ever let them go
I'll never let them go

Remember the days (La La La)
Lyin' on your doorstep, made us
Change our lives before we knew
And it's easy to fade (La La La)
As we're gettin' older, but I
Hope you know I want you back

'Cause now we're in our gold years
Drops of rain are fallin'
Never found a reason
To ever let them go
'Cause now we're in our gold years
Silver rain is fallin'
Still can't find a reason
To ever let them go
I'll never let them go
