

Like Nothing Else

Hot Flash Heat Wave

When you found me I was alone
Felt like I had no one
'Til you took me by the arm
And you opened up my world
Oh what a beautiful view
Felt so unreal
The way you had me fallin'
Deeper than ever before
Now that you've gone away
Nothing hits the same
I need you back again

Nothing gets me like you do
Even after all this time
You stay front of mind
I'm hooked without another fix in the world
Nothing gets me like you do
Baby, you got me like nothing else

We left the Double Tree hotel
To sit down in the park
You wrapped me in your arms
And now I feel just like Sinead
Nothing compares 2 u
Nothing like all the boys and the girls
Put me on another world
And I look up to you
Like a shining star
But if we stay together
Love will tear us apart

Nothing gets me like you do
I know nothing lasts forever
It's time I let it go
The picture I've been holding so closely to my soul
The picture of you

Oh, you (only you, only you)
Only you, only you (nothing else, nothing else)
And nothing else (you, only you)
Nothing else, nothing else

Nothing gets me like you do
Got me like nothing else
