

Slam Dance

Hot Flash Heat Wave

If I asked you, "could we dance
Side by side, side by side?"
Would you then turn to smile by my side?
Yeah, by my, by my side?

I never felt something like this before. Oh
I'm thinking my choices could lead out the door

And if we go back to my place right now
It wouldn't be the same again
I see it's painted all around our walls
I knew it in the words I was gon' say
Let's go away to the city, yeah
Let's move so far away from here
Together we might side by side
Closer to something new

I never felt something like this before. Oh
I'm thinking my choices could lead out the door

You are the show
We followed our hearts, our sole mistake
Yeah, that's our show
That's all the time we've got today

When they marry us
Fate pulls up
Well, we're moving back to the lights
Because we know everybody in sight
Call your name but it's too late
Who even cares at all
And who needs to
Who even needs to know?

I never felt something like this before. Oh
I'm thinking my choices could lead out the door

You are the show
We followed our hearts, our sole mistake
Yeah, that's our show
That's all the time we've got today
