

Bobby Joan Sex Tape

Hot Hot Heat

Move to the upgrade like you should
In the middle of the city, yeah
In the middle of the money now
Deep cuts still cut in Hollywood
Can I get a little something, yeah
Can I get a little something now

If I'm the working man
If I'm the hunters kid
Then why am I so small
Draw your map to other kids and feed their love
But for now I've had enough

In this small town (In this small town)
We made a pact (We made a pact)
Do what you do and let us through between the cracks
In this small town (In this small town)
I fool a proof (Fool a proof)
Don't need to be anywhere else and that's the truth
[x2]

End of the rainbow you say
A pot of gold is at stake
I can't believe we were just 15 years old yesterday
You embrace London and New York
I moved to where I found some work
I don't believe I would've know
What to do with what you found

If my life luggage's debt
Well let me unplug it
Why do I feel so small
Draw your map to other kids and feed their love
But for now I've had enough

In this small town (In this small town)
We made a pact (We made a pact)
Do what you do and let us through between the cracks
In this small town (In this small town)
I fool a proof (Fool a proof)
Don't need to be anywhere else and that's the truth
[x2]

In this small town
We made a pact
Do what you do and let us through between the cracks
In this small town
I fool a proof
Don't need to be anywhere else and that's the truth
