

## The Memory's Here

Hot Hot Heat

The memory's here, it won't go away  
The memory's here, it won't go away now  
The memory's here, it won't fade away  
The memory's here, it won't fade away now

The memory's here, it won't float away  
The memory's here, it won't float away now  
The memory's here, it won't slip away  
The memory's here, it won't slip away now

And all I see our life is based on  
Chosen that I'm doing the right thing  
And so aware, you're  
All I feel the future of the world  
It is not too good until you sing  
So let me hear you sing

(Hey!)

I've got it, exaggerating for effect  
I can't repent  
I am not exaggerating for effect  
Can't repent

The memory's here, it won't go away  
The memory's here, it won't go away now  
The memory's here, it won't go away  
The memory's here, it won't go away now
