

# Bad Influence

Hot Milk

I wanna die, I wanna die  
I wanna cry 'cause I'm bad news  
But when I try, something's on your mind  
You heard that I've got a screw loose  
Baptized with black eyes  
Please gimme just one more try  
Blood dries, and I'm blind  
Death rattles from my insides

I'm just a bad influence  
You want nothing to do with  
Fuck all your friends  
They don't know what the truth is  
I'll just dig my own grave  
You know I'm just a bad influence  
You want nothing to do with  
(Yeah!)

I can't lie, oh, I can't lie  
I'm still alive and I don't know why  
I got a headache and it won't go away  
Kill my braincells, honey  
I know you love the taste  
I make mistakes, crocodile tears?  
Darling, I got a lake  
I'm made in hell, promise you'll never tell

I'm just a bad influence  
You want nothing to do with  
Fuck all your friends  
They don't know what the truth is  
I'll keep digging my grave  
You know I'm just a bad influence  
You want nothing to do with  
(Yeah!)

I can't trust myself, I need some help  
(I don't want it, no, I don't want it)  
(I love to hate myself)

I'm just a bad influence  
You want nothing to do with  
Fuck all your friends  
They don't know what the truth is  
I'll just dig my own grave  
You know I'm just a bad influence  
You want nothing to do with  
I'm just a bad influence  
You want nothing to do with  
Fuck all your friends  
They don't know what the truth is  
I'll keep digging my grave  
You know I'm just a bad influence  
You want nothing to do with  
(Yeah!)
