

# Buy A Fire Extinguisher Before You Need A Fire Extinguisher

Hot Mulligan

I'm setting off these fireworks outside your bedroom window  
Washed in sparks as fire's falling down into the snow

Dogs are barking, noise complaints, but I don't want to go  
Step outside, I'll play these songs, don't make me be alone  
Singing just to please someone is all I've ever known  
Sit for hours, no response; guess I'll go back home

And I had a little money in my pocket  
Spent it all on you  
Yes, I had a little money in my pocket  
Well, I guess that's really all I had  
(That's really all I had)

Snowballs cake your screen (and I hope you're home, 'cause)  
How embarrassing (would it be if)  
You're not home and I'm just watching  
Your window instead of knocking?  
Play guitar in your back yard  
Sing and wait until your alarm goes off  
And it goes off

I'm setting off these fireworks outside your bedroom window  
Washed in sparks as fire's falling down into the snow

I'm setting off these fireworks outside your bedroom window  
Washed in sparks as fire's falling down into the snow

What will it take for me to see you when  
You're thinking I'm a human?  
I'll wait until you're feeling  
I'll wait until you're feeling  
What will it take for me to see you when  
(I'm setting off these fireworks outside your bedroom window)  
You're thinking I'm a human?  
(Washed in sparks as fire's falling down into the snow)  
I'll wait until you're feeling
