

Now Or Never

Hot Rod Circuit

To the boy with the short attention span
The classes that they put him in
Knows just where he stands
To the girl who lost it all that night
Since she tried with all her might
To run as fast as you can
To run as fast as you can

It's now or never
You got me runnin' around again
Did ya make a conscious effort?
You got me fallin' apart, fallin' apart
You got me fallin' apart, fallin' apart

To the boy with the short attention span
The classes that they put him in
Knows just where he stands
To the drugs that compensate for brains
You'll never hear them complain
'Cause they're too fucked up to understand decions made

It's now or never
You got me runnin' around again
Did ya make a conscious effort?
You got me fallin' apart, fallin' apart
You got me fallin' apart, fallin' apart

It's now or never
You got me runnin' around again
Did ya make a conscious effort?
You got me fallin' apart, fallin' apart
You got me fallin' apart, fallin' apart
