

Dead End Streets

Hot Water Music

I've seen the dead end streets
I've seen the hatred they bring
I've dropped my jaw and lived
Screaming no until I saw
It did no good
But I couldn't help but scream

How cruel is it for a world
To select what is or is not beautiful
Only fools live in the days
Where the sun rises to separate and segregate

I understand their turmoil
But I can't understand their ways
And I refuse to live that way
Because I live and I'll die to be
Hate free, hate free

That's what turns the world
That's what conquers war
That's what's wonderful
That's what turns the world
That's what conquers war
That is wonderful
