

Denatured

Hot Water Music

I get along fine, but I just don't ever get enough
I see it all right, but it just don't ever measure up

And I know this don't make no sense
But I can't sleep right, just like everybody else

Displaced and overgrown
Divided later on
Denatured all along
The vine and raised to roam

I never let my little rough steps settle in the mud
I leave it all right in the dust and kill it with the sun

And I keep building my defense
Cause I can't sleep right, just like everybody else

Displaced and overgrown
Divided later on
Denatured all along
The vine and raised to roam

Displaced and overgrown
Divided later on
Denatured all along
The vine and raised to roam
