

## Eating The Filler

Hot Water Music

How could i fill myself with nothing  
Got a drink from the tap  
Makes my insides burn with nothing  
Scrape the bottom of the can  
I was hoping but it's not enough  
Staring at the walls and breathing in  
I wish that i could live on air and music  
I never thought that i could starve in my own home  
I need fuel  
How could i eat all of what i don't have cause i need rest  
Nothing here but i look again  
I gotta get out of this cause i can't stand this empty house  
It's all right it's all we got it's all right
