

No division

Hot Water Music

We've been locked up and run right down been pushed aside for s
peaking out against ways of division set to hold us down to put
us back in line when we step out but i'm not living under them
when we could when we could rise above a culture that says we
are better than worse than anyone that's not like us we'll sing
our hearts in unity that we won't obey or follow hate we stand
together we stand with no division and the ways of old will be
swept away
