

Show Your Face

Hot Water Music

Show your face if you've got some words to speak
Shoot on straight, don't stray let's play for keeps
If you've got the heart to choose
Grudges over pardons due

You will never know
All you lose by never letting go
You will never grow
Poisoned by the venom that you own

Show your hardened head from beneath the black
Face the music face the truth and acts
Drown yourself in a hole of hurt
Or free your stature loose of dirt

You will never know
All you lose by never letting go
You will never grow
Poisoned by the venom that you own

You will never know
All you lose by never letting go
You will never know
All you lose by never letting go
You will never know
All you lose by never letting go
You will never know
All you lose by never letting go

You will never know
All you lose by never letting go
You will never grow
Poisoned by the venom that you own
You will never know
All you lose by never letting go
You will never grow
Poisoned by the venom that you own
