

Yellow bih, pretty brown eyes, I like her physique  
Pretty smile she got nice teeth and she by the cheek  
First class met her on the flight sittin' next to me  
Bae bad, what a snack, face matchin' everything  
Make her say "please please please don't you never leave"  
We got green beam, weed lean, we got everything  
Ain't never been sweet, I can't let them get the best of me  
Let that choppa scene, pull out, hit a bitch with melodies

Ice, ice, got a mean wrist so I freeze quick  
Mood switch for no reason, that don't mean shit

And for you I won't fiend, when you with me I'm on demon  
Put a switch on this dick, make it bust when you squeezin'

Forreal, long as they printed imma go and get her  
Ain't seen you in a while, cause bae I'm on a mission
