

What It Was

Hotboii

Some things I won't get used to
Some things will never be the way it was
Some people might just lose you, leave them lost
But I'm just happy that we won
Ain't in the double backing what I'm double backing for
Some gone ain't no relapsing I done threw away my drugs
Route, trying to collect these funds
Can't be lacking I keep guns
Won't stop packing I'd be gone
I'm adapting just because

I done threw away my love
No option I ain't got no choice
Some people say we just young
But I feel we stuck in a storm
If so then baby could you follow me out right now
Imma lead the way and keep you out of harm's way
Wanna hold you in my arms babe
Even if we part ways would you be like just a call away
No more dark days my money up I ball like Hardaway
And I just went to the dealers ya'll's no I forgot to mention
Hotboii could go anywhere cause Hotboii got that glizzy
If I catch a sentence would you go missing
If so keep your distance if those are your intentions

Some things I won't get used to
Some things will never be the way it was
Some people might just lose you, leave them lost
But I'm just happy that we won
Ain't in the double backing what I'm double backing for
Some gone ain't no relapsing I done threw away my drugs
Route, trying to collect these funds
Can't be lacking I keep guns
Won't stop packing I'd be gone
I'm adapting just because
