

## Firecracker People

## Hotel Lights

there's no little bird to set free  
or play a part in what's meant to be  
i control what my heart thinks  
or is it just like gunpowder

no one is listening  
just taking what they're given  
that will never be me

we're all firecracker people  
going off all the time  
the empire keeps pulling  
beautiful spark out of time

look how the sun shines for me  
i have a mind for industry  
i need another with big dreams  
louis vuitton and mercedes  
an eye for the finer things

the city light keep pulling  
i'm standing still and moving  
and the tubes are glowing

we're all firecracker people  
going off all the time  
everywhere i go, you'll be  
beautiful spark out of time

what does love have to offer me  
i don't think i believe  
could there be someone who'll inspire me  
or is it just the dream i dream

who's gonna prove it different  
when everyone's pretending  
and the research is showing

we're all firecracker people  
going off all the time  
the empire keeps pulling  
beautiful spark out of time

will you ever notice me  
will my heart remain incomplete  
you're the driftwood, i'm the sea  
maybe in time you'll learn to see  
oh, i believe

like a fuse burning slowly  
you're miles away, i'm within reach  
i am here patiently

we're all firecracker people  
going off all the time  
everywhere i go, you'll be  
beautiful spark out of time

we're all firecracker people  
every thought i'll ever know  
you're the only thing that i see  
beautiful spark out of time
