

Summer, 2017

Suburbs - We would've killed to leave
And young men can hang their hat on love
Yeah I know, that's what you wanted but
It's rock and roll music that tied me my noose in the first place
I can't wait to lose it because everyone cool is a head case

Are you into me?
Oh baby, we got it good
(She says you're handsome but you shouldn't move to Hollywood)
Oh honey, please shut me up
(She thinks it's sexy when the boys don't wanna talk so much)
Come over and wreck my heart

Danger was still my middle name
Yes it was
When your love made me come of age, just enough
I can't wait to lose it because everyone cool is a head case
My mind got polluted by rockstars in suits in a new way

Are you into me?
Oh baby, we got it good
(She says you're handsome but you shouldn't move to Hollywood)
Oh honey, please shut me up
(She thinks it's sexy when the boys don't wanna talk so much)
Come over and wreck my heart

Come over and wreck my heart
I can't wait to lose it because everyone cool is a head case
When life gives a jungle I'll be the machete who can't say

Are you into me?
Oh baby, we got it good
She says you're handsome but you shouldn't move to Hollywood
Oh honey, please shut me up
Shut me up (x4)
Come over and wreck my heart
Come over and wreck my heart
