

Giving It All Away

Hothouse Flowers

We've got the sky but it's getting hard to see it
Yes we've for the sky but it's getting hard to breathe it

Giving it all away

An old man told me about dolphins and people
He said that there was killing and they were screaming
I cried when I heard what they were doing

Giving it all away
And we have love -- let's use it
People got love why should we lose it
Giving it all away
