

## Music That I Need

Hothouse Flowers

There's mine in my day  
You are one with my night  
And I hope that you stay  
And I'm sure that you might  
Alright, let's do that thing

You're the beginning of my day  
You're the star that lights up my night  
And when I need you and I pray  
That the reason becomes the light

Driving you home, driving you home  
Along the highway  
Pass the stonewall  
Listen to the voice  
Listen to the tune  
Lulled into the morning  
Into the imagination the truth

Oh, when I'm listen to the song  
But I'm listen to the music that I need  
That I need you

You baby  
Sweet darling  
My honey  
Oh, my love  
Pretty baby  
Sweet darling  
My honey  
My darling  
Oh baby  
Oh baby  
Oh darling  
Oh baby  
Darling  
...
